

test certificate of

Routine and Type Tests (see test List Pg. 3)

apparatus

Shunt capacitor for a.c. power system

designation

Type TAF-T1325665S10R; Ser.M.T8Z1402S

rated voltage 10134 V; rated output 864,9 kVAR; rated frequency 50 Hz

manufacturer

SAMWHA CAPACITOR CO. LTD - Yongin City;

Republic of Korea

tested for

SAMWHA CAPACITOR CO. LTD - Yongin City;

Republic of Korea

date(s) of tests

March 9 to 30, 2008

the apparatus, constructed in accordance with the description, drawings and photographs incorporated in the reference documents, identified in this certificate, has been subjected to be series of proving tests in accordance with

IEC Standard 60871-1 (1997

this test certificate has been issued by CEST accordance with above mentioned standard.

the results are shown in the record of ploving tests and the oscillograms attached in the test report. The values obtained and the general performance are considered to comply with the above standard and to justify the ratings assigned by the manufacturer as listed on page no.2

the certificate applies only to the apparatus tested. The responsibility for conformity of any apparatus having the same designations with that tested rests with the manufacturer.

only integral reproduction of this certificate of reproductions of this page accompanied by any pages on which are stated the endorsed ratings of the apparatus tested, are permitted without written permission from CESI.
