

Test Certificate of tests to prove suitability to short-circuit withstand strength and effectiveness of the

protective circuit

Low-voltage switchgear assembly **Apparatus**

Designation 6-Way Feeder Pillar

Rated current 2500 A; Rated operational voltage 415 V; Rated frequency 50 Hz

Manufacturer AL-AHLEIA Switchgear Co. - Kuwait

Tested for AL-AHLEIA Switchgear Co. - Kuwait

Date(s) of tests from April 16, 2008

Tested by IPH GmbH – Berlin – Germany

The apparatus, constructed in accordance with the description, drawings and photographic apparatus, constructed in accordance with the description, drawings and photographic apparatus, constructed in accordance with the description, drawings and photographic apparatus, constructed in accordance with the description are constructed as a constructed a aphs incorporate the reference documents, identified in this certificate, has been subjected to the series of proving tests in accordance w

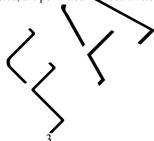

IEC 60439-1 (200

This Test Certificate has been issued by CESI in accordance with above mentioned Standards.

The results are shown in the record of Proving Tests and the oscillograms at ached in the Test Reports. The values obtained and the general performance are considered to comply with the above Standards and to justify the ratings assigned by the Manufacturer as listed on page No.2.

The Certificate applies only to the apparatus tested. The responsibility for conformity of any apparatus having the same designations with that tested rests with the Manufacturer.

reproduction Only integral reproduction of this Certificate, of of this page accompanied by any pages on which are stated the endorsed ratings of the apparatus tested, are permitted without written permission from CESI.
